

## Installation Guide

*Step 1:* Download Tableau Public or Tableau Desktop from the browser: <https://www.tableau.com/>

*Step 2:* Once the app is downloaded then,

For windows: Open the .exe file, affirm to the terms and conditions and install

In Tableau Desktop the registration will be done by the copying the license on clicking on Activate Tableau and access the free trail.

For Mac: First open Disk Manager File (.DMG) and then click on the installer package (.PKG) to install.

For Linux: After downloading, navigate to the path and install using the Package Manager.

*Step 3:* Access the Workbooks in Tableau that is “**.tbw and .twbx**” file.
